### Community Training & Development

#### Career Preparation & Training Program: Screening and Referral Form

This program is available to individuals who have not earned a certificate or degree. A student enrolled in the program understands the goal is training towards employment.

Completing Phase I – Career Preparation is the first step towards an employment goal which establishes eligibility for the student to access and complete one of the identified training programs in Phase II, resulting in certification in a designated area to gain employment in their field or related field.

I understand that I am required to meet via Zoom with a representative from CCAC to discuss my eligibility, interest in the Career Preparation and Training Program, complete an application, and financial documents must be received by CCAC before I can begin Phase I – Career Preparation.

Your signature below indicates that you have read and understand the above information and agree to the terms.
