

# CCAC Boyce Campus News

January 28, 2019 No.2

Thank you to math faculty Joseph Guiciardi for this drone shot of Boyce

## Mandatory Safety Training

Are you a new employee to Boyce Campus? If so, it is mandatory to attend our New Employee Safety Workshops that will give you an overview of safety at the Campus. SEIU, please discuss office coverage with your supervisors. Workshops will be offered:

**March 6 (Choose one)**

**10-11am & 3:30-4:30pm**

**Room N439**

## Wayfinding and Digital Signage Team Expansion

You've seen the gorgeous signs, now Sara Alamazon and Cathy Drakulic will be leading the team at Boyce to create wayfinding messages and more!

## Campus News from Dr. Gretchen Mullin-Sawicki

### Enrollment and Retention News

Now that Spring late start classes have started, the final start for students is the **Mid-Semester Start** beginning in March and April: Designed for students who have missed the earlier semester starts, 13 classes are offered on-line, on the weekends and during the day.

Check out our Mid-Semester Offerings Below:

[https://www.ccac.edu/uploadedFiles/Pages/Footer/Campuses\\_and\\_Centers/Boyce\\_Campus/Boyce%20Mid-Semester%20Classes%20SP19.pdf](https://www.ccac.edu/uploadedFiles/Pages/Footer/Campuses_and_Centers/Boyce_Campus/Boyce%20Mid-Semester%20Classes%20SP19.pdf)

Additionally, please encourage students to take these classes if they are not successful in their current classes and need to drop and add a class. Spread news of the Mid-Semester Start with all your contacts to assist us with meeting our enrollment goals at CCAC.

For the students that are already in your classes, please know how important it is to assist them with their success. The most important thing to students is that they know that you care about them. Simple things like knowing their names, talking to them about their careers, sharing with them the free resources that we have at CCAC go a long way in revealing our tagline: Our Goal is Your Success. Keep students engaged and retained.

## *Facility Changes Coming to Boyce*

- New Bottle Filler coming this semester
- International Flags coming to the T- 4<sup>th</sup> Floor
- A new refreshed and repaired façade
- New Boyce Campus Outside Sign
- Wayfinding on our great new Digital Signs
- An analysis and report on the efficiency of space and IT with recommended changes shared with Boyce Campus.
- A new student lounge outside of the Auditorium
- An innovation lab focused on Allied Health and Science and Technology with short-term upskilling, sensor technology, industry connection and project-based, interdisciplinary learning meeting the needs of the Inflection Report:

[https://www.alleghenyconference.org/wp-content/uploads/2017/12/018\\_InflectionPoint.pdf](https://www.alleghenyconference.org/wp-content/uploads/2017/12/018_InflectionPoint.pdf)

## **Why Innovation Lab in Allied Health and Science and Technology (ST)?**

Our guide for workforce development is *The Inflection Report*, which details the Supply Demand and the Future of Work in the Pittsburgh Region. The 2017-2018 revision shows that seven of the top ten fastest growing occupations are still in healthcare. It also reveals that technology is reshaping every occupation at a rapid rate, driving the need for continuous upskilling of the workforce. Moreover, the inflection report reveals that fewer than 10% of employers are even considering engaging with the K-12 systems and fewer than half are providing internships for college students (6). This is where CCAC Boyce's Innovation Lab will step in to engage with our K-12 partners in dual enrollment and college in the high school opportunities to better prepare students for careers in Allied Health and Science and engage with industry in project-based learning for our students. Moreover, our innovation lab will address the “upcredentialing” needs of employers seeking higher levels of credentials in the Allied Health field. With robotics, sensors and other new technology-based tools, our lab will assist the current workforce with this needed upscaling to maintain their employment; and better prepare students for Jobs of the Future.

## **AGGREGATE LABOR DEMAND UPDATE**

*Inflection Point* 2016 projections for occupational growth continue to be on track and are noted in the following table.

**Table 2: Employment Summary by Occupation Family**

Occupation Family	2017 Employment	Annual Openings 2015-2025	Projected Growth Rate	Unemployment Rate
Healthcare Support	39,569	5,103	15%	5.5%
Healthcare Practitioners and Technical	84,830	4,174	12%	1.7%
