Spring 2019 Registration Stickers!

We must continue to focus on Spring enrollment at BC to meet our 1.6% FTE increase college goal. As of today, Spring 2019 enrollment is down 16.09% at Boyce with all discipline areas down substantially. The leadership team is meeting to develop strategy to address this concern.

Campus News from Dr. Gretchen Mullin-Sawicki

Welcome to the Spring 2019 Semester! It is an honor to serve as the Acting President at Boyce Campus this semester. I look forward to meeting all of you, to listening to your concerns and needs and to implementing some new initiatives to enhance the enrollment and retention numbers at Boyce Campus. Some of these include initiating the retention program: Single Point of Contact (SPOC) beginning Fall 2019, a program which connects administrator mentors with new students at the point of registration and expanding the Accelerated Professional Programs: 8 week, hybrid high demand credit programs in the evening and weekends at Boyce Campus. We will also be exploring additional student lounge spaces and collaborative classrooms with input from facilities, faculty and students.

The Boyce Campus leadership team will be joining the North team on Strategic Enrollment Management Committees, staff meetings and Communication team meetings. We hope these joint collaborations will assist in our one college implementation goals and expand our creative brainpower!

I will be stopping by the Boyce Spring All Campus meeting on January 9th and hope to get acquainted with as many people as possible on this day. However, if we do not have an opportunity to meet, you will be able to find me on campus on Wednesdays and Fridays in room N439- next to Dr. Martoni's office, the same office as the Human Resources office. Please feel free to stop by!

Enhanced Social Media is coming to BC!

We will now be posting updates on Boyce Campus at Google My Business, Twitter and Instagram showcasing all of the wonderful programs and services for our students.

What is Single Point of Contact (SPOC)?

The purpose of the Single Point of Contact (SPOC) program is to provide each incoming student with a single person to assist them in navigating through CCAC and to create an environment that ensures students feel connected to the College. The SPOC program was piloted at the North campus and West Hills Center locations and positively improved retention. In an effort to *intentionally* improve retention, each first time student at the pilot locations were assigned a Single Point of Contact (SPOC). The role of the SPOC is to develop a relationship with the student through engagement in the college environment; to provide the student with an expert at the College who can assist the student in removing barriers to their enrollment; and through their initial academic year, to assist the student in the removal of barriers to their academic success. The SPOC connects all the dots for the new student by giving them one place to go to for questions and one place to go to- to receive referral information. By minimizing confusion and creating a way to develop a relationship with the college, the program has delivered an efficient process. We will begin SPOC at Boyce Campus in Fall 2019.

Some of the above enrollment loss is due to the move from the Braddock Hills Center to South Campus and the position of the internet class offerings for Boyce Campus; however, we must develop innovative programs to initiate new student growth, develop retention programs like the one above and schedule to meet the needs of a busy part-time student population. Please watch your email regarding ways to participate on our joint North and Boyce Strategic Enrollment management committee.
