Description: ACLS Provider

ACLS Provider is an advanced, instructor-led classroom course that highlights the importance of team dynamics and communication, system of care and immediate post-cardiac-arrest care. It also covers airway management and related pharmacology. Skills are taught in a large group session as well as in small group learning and testing stations using case-based scenarios. ACLS is designed for healthcare professionals who directly participate in the management of cardiopulmonary arrest or other cardiovascular emergencies. This includes personnel in emergency response, emergency medical medicine, intensive care and critical care units such as physicians, nurses, and paramedics, as well as others who need an ACLS course completion card for job or other requirements.
